kraftBoxx - AWARD WINNER 2019

kraftBoxx
Trade fair offer

secure until 31. 07.19!

Dear Mr. Sperlich,

simply incredible - **simply sensational** – **simply kraftBoxx**

With these words we let the overwhelming response to the EM-Power affect us and thus say a warm THANK YOU for your visit to our joint booth **Axiotherm & Klara energy systems**.

As you surely heard from the media and were able to witness directly at the fair

(The smarter E Europe 2019), we were honored as award winners in the category: Smart Renewable Energy, with our "kraftBoxx Hybrid Storage - the Innovation for Heat and Cold Storage".

We would like to share this **SUCCESS** with you, ask for your **personal fair offer** until July 31, 2019.

It's worth to be quick - the first 10 orders on top of that get a few **special cooling batteries** for the cooler.

Trade fair - Offer - Inquiry

Store surplus energy efficiently with the kraftBoxx hybrid storage

- use the entire PV-surplus through variable power modulation
- use additional latent storage capacity
- 10 times higher power, compared to conventional latent storage systems
- 2 - 3 times higher storage capacity compared to a water storage tank
- 10 times cheaper than a comparable battery storage system

We offer you these advantages, with a capacity of 200 - 1000 liters, our heatStixx latent materials and with up to 60 kWh.

Convince yourself and contact us!

BIO-Kraftwerk Schkölen

PROJECT LOCAL HEATING NETWORK

BIO-Kraftwerk Schkölen

CONCEPTUAL FORMULATION

- Extension of an existing local heating network
- The network is busy in terms of capacity, there is still potential in the balance sheet
- Extension only possible with additional storage capacity → Peak-Shifting & Peak-Cutting
- Decentralized storage in individual buildings are charged at different times

Wärmepumpe & PV

PROJECT HOUSING ESTATE

Selfkant-Millen

CONCEPTUAL FORMULATION

- Supply of a senior residence with 8 units with heat and hot water
- Temperature control of the building in summer
- Storage and use of excess PV energy
- Heat pumps switchable heating/cooling
- Fulfillment of the funding requirement for latent storage (Landesförderung NRW)

SOLUTION: [PDF for download DE](#)

We'll find the right strategy
for your success!
